

STEPHEN M. LOMEI

Content & Video Producer | Instructional Media, Documentation & AI-Assisted Workflows
Yonkers, NY · 914-494-5788 · steve@slomei.com · [LinkedIn](#) · slomei.com

PROFILE

Content producer and editor with 13+ years turning complex, technical material into clear visual and written deliverables across feature animation at Netflix Animation and Blue Sky Studios. Built and edited instructional and how-to video content from the ground up, including step-by-step tutorials and process walkthroughs for internal and public audiences. Skilled at converting raw recordings and source material into scalable, organized assets and translating intricate systems into easy-to-follow steps. Now builds AI systems independently, including a from-scratch AI agent with guided onboarding and full documentation. Pairs professional editorial judgment with deep, hands-on AI fluency, continuously testing new tools to stay at the forefront and bring practical AI workflows into content production.

EXPERIENCE

Independent | AI Systems & Content Development

2024 – Present

Creator, Producer & Developer

- Built and shipped a personal AI agent from scratch (multi-model routing, persistent memory, four interfaces) with a guided onboarding wizard, in-app help, and full documentation that turns technical setup into steps a non-technical user can follow.
- Designed a Python-based market-intelligence application driven by a four-stage, multi-model AI pipeline that routes tasks across models by complexity and cost, orchestrating AI systems end to end.
- Build AI-assisted production pipelines using generative video tools (Google Veo, LTX-2), AI narration (ElevenLabs), and AI transcription and summarization to speed content creation and standardize output.
- Author technical and instructional documentation and suggested-workflow guides, and produce original short-form video evaluated against professional standards for pacing, clarity, and continuity.

Netflix Animation Studios | Burbank, CA (Remote from New York)

2021 – 2024

1st Assistant Editor (Nov 2021 – Apr 2024) · 2nd Assistant Editor (Apr 2021 – Nov 2021)

- Translated complex, constantly evolving production pipelines into organized, usable assets, managing content from raw source material through final delivery.
- Built and maintained large media libraries across Avid NEXIS and Lucid Link, keeping distributed multi-editor teams synchronized, in effect running a centralized content repository.
- Worked directly with editors, producers, and directors across time zones, turning subject-matter input into clear, on-time deliverables.
- Promoted from 2nd to 1st Assistant Editor within seven months.

Blue Sky Studios | Greenwich, CT

2013 – 2021

1st Assistant Editor & Social Media Editor (2018 – 2021) · 2nd Assistant Editor (2013 – 2018)

- Created instructional and how-to video content from scratch, including step-by-step drawing tutorials, process walkthroughs, and studio showcases, writing, directing, and editing each piece end to end.
- Partnered with the Head of Social Media to develop content strategy and adapt material for different audiences and platform-specific specifications.
- Converted raw footage and source material into finished narrative assets under deadline, including sizzle reels and department showcases used in internal presentations and external marketing.

TECHNICAL & TOOLS

Content & Video	Adobe Premiere Pro, After Effects, DaVinci Resolve, Avid Media Composer; OBS and Loom for screen recording and tutorial capture; scripting, storyboarding, short-form and instructional video
Documentation	Technical writing, knowledge articles, job aids, onboarding and reference materials, content-library organization and tagging
AI Tools	Large language model tools (ChatGPT, Claude, Gemini, MS CoPilot); AI video generation (Google Veo, LTX-2) and narration (ElevenLabs); AI transcription and summarization (Simon Says), tagging, and search; Anthropic API and Python for content automation
Collaboration	Flix, Pix, SyncSketch, ShotGrid, Evercast, Lucid Link, Avid NEXIS

EDUCATION

Bachelor of Arts, Media and Communication Arts · Pace University, Pleasantville, NY
