STEPHEN M. LOMEI

1st Assistant Editor, Feature Animation | AI Projects & Workflows

Yonkers, NY · 914-494-5788 · steve@slomei.com · LinkedIn · slomei.com

PROFILE

Assistant editor with 13 years in post-production, including feature animation at Netflix Animation and Blue Sky Studios, most recently as 1st Assistant Editor on a Netflix feature. Experienced across the full editorial pipeline: storyboard ingest, scratch and production dialogue, shot cut-ins and QC, reels, and delivery. Has worked with generative AI since 2024, including AI video production, and in 2026 built an open-source AI agent and a multi-agent market-intelligence system with the AI coding agent Claude Code.

EXPERIENCE

Independent | AI Projects

2024 – Present

Creator, Producer & Developer

- Tested new generative AI models and tools across text, image, video, and code (2024 – 2025).
- Designed and shipped First Contact, an open-source personal AI agent built with Claude Code (multi-model routing, persistent memory, four interfaces), with a guided onboarding wizard, in-app help, and full documentation that turns technical setup into steps a non-technical user can follow (2026).
- Designed the agent's safety model so limits are enforced in code and never left to the prompt, with human approval required for actions that affect outside systems.
- Design and run a multi-agent market-intelligence system: automated data monitors feed an AI trading agent on a simulated account, a second model runs alongside it for comparison, and every call is scored against a market benchmark (2026 – Present).
- Built AI video production pipelines combining hosted tools (Higgsfield, Veo, Kling, ElevenLabs) with open models (LTX, Wan) run locally in ComfyUI, including AI audio generation.
- Write technical documentation and workflow guides, and produce original short-form video held to professional standards for pacing, clarity, and continuity.

Netflix Animation Studios | Burbank, CA (Remote from New York)

2021 – 2024

1st Assistant Editor (Nov 2021 – Apr 2024) · 2nd Assistant Editor (Apr 2021 – Nov 2021)

- 1st Assistant Editor on *Prince of Port-au-Prince*, an unreleased Netflix Animation feature, managing the editorial pipeline from storyboard ingest through screenings and deliveries. Promoted from 2nd to 1st Assistant Editor in seven months.
- Built and maintained the Avid project and shared media across Avid NEXIS and Lucid Link for a remote, multi-editor team, keeping bins, naming, and versions clean and every editor in sync.
- Processed storyboard panels through Flix into Avid and cut in layout and animation shots as departments delivered, keeping the reels current.
- Ran scratch and production dialogue: recorded sessions, logged and transcribed takes, and broke down and synced selects into the cut.
- Cut sequences and first-pass assemblies for the editors.
- Output reference QuickTimes and screeners for directors, producers, executives, and departments through PIX, Evercast, and SyncSketch.
- Worked directly with editors, producers, and directors across time zones to keep deliveries on schedule.
- Also provided assistant editorial support on *Ultraman: Rising* (uncredited) and *Steps*.

Blue Sky Studios | Greenwich, CT 2013 – 2021

1st Assistant Editor & Social Media Editor (2018 – 2021) · 2nd Assistant Editor (2013 – 2018)

- Assistant editor on the features *Rio 2*, *The Peanuts Movie*, *Ice Age: Collision Course* (uncredited), *Ferdinand*, and *Nimona* (uncredited).
- 1st Assistant Editor on *Foster*, an unreleased feature canceled when the studio closed in 2021, managing the editorial pipeline through its early screenings. Before that, took on 1st assistant duties on *The Peanuts Movie* and *Ferdinand* while training for the role.
- Imported, cut in, and quality-checked media from every stage of production, story through final lighting.
- Built string-outs and first-pass cuts for editors and maintained cut integrity across versions.
- Ran scratch and production dialogue sessions: recorded, logged, transcribed, and synced the takes.
- Built reels and output reference QuickTimes for screenings, executives, and departments, and managed editorial media in Avid.
- As Social Media Editor, partnered with the Head of Social Media to produce, direct, and edit short-form content for the studio's social channels: how-to videos, drawing tutorials, and studio showcases.
- Cut sizzle reels and department showcases used in internal presentations and external marketing.

TECHNICAL & TOOLS

Editing & Video	Avid Media Composer, Adobe Premiere Pro, After Effects, DaVinci Resolve; OBS and Loom for screen recording and tutorial capture; scripting, storyboarding, short-form and instructional video
Documentation	Technical writing, knowledge articles, job aids, onboarding and reference materials, content-library organization and tagging
AI Tools	Large language model tools (ChatGPT, Claude, Gemini); agentic coding with Claude Code (Python, Anthropic API); AI video generation (Higgsfield, Google Veo, Kling, LTX-2, Wan, ComfyUI) and narration (ElevenLabs); AI transcription and summarization (Simon Says), tagging, and search
Collaboration	Flix, PIX, SyncSketch, ShotGrid, Evercast, Lucid Link, Avid NEXIS

EDUCATION & CERTIFICATIONS

Bachelor of Arts, Media and Communication Arts · Pace University, Pleasantville, NY

Future of AI certificate · BlueDot Impact, 2026
